

List of tools available in the menu "Tools" when you select one or more preset(s) in the tree.

When a preset or one of its division is selected in the [tree](#), the "[Tools](#)" menu allows the following features:

- [Division duplication](#)
- [Global setting](#)
- [Sound spatialization](#)
- [Visualizer](#)

Using the tools simultaneously on several presets is possible (with a multi selection), except for the visualizer.

Division duplication

Same effect than "[Division duplication](#)" for instruments.

Global setting

Same effect than "[Global setting](#)" for instruments.

Sound spatialization

Same effect than "[Sound spatialization](#)" for instruments.

Visualizer

Same effect than "[Visualizer](#)" for instruments.
